Coordinated by South Bay Community Services (SBCS), Chula Vista Promise Neighborhood (CVPromise) brings together a collaboration of partners focused on family, education, health, and community to provide children in Castle Park neighborhood with the kind of opportunities they need to excel in school, get into college, find good jobs, and lead healthy lives.

Promise Neighborhoods support children from the minute they are born to college completion. In Chula Vista, schools are at the heart of its Promise Neighborhood, but opportunities extend beyond the school walls. It brings together parents, businesses, non-profits, hospitals and clinics – to name just a few. Together, these partners support children through a pipeline of services so they can grow up healthy, well-educated and successful.

FAMILY: Family support is one of the vital pillars in helping CVPromise students achieve success in school and beyond. Our programs strive to support and strengthen all families as key partners who not only understand how to help their children thrive but also have the resources to do so.

EDUCATION: When families struggle financially and emotionally, it impacts the whole family in the household - including children’s learning. Education opens up a world of possibilities and is instrumental in breaking the cycle of generational poverty.

HEALTH: Health and nutrition impacts the way a student learns, feels, and thinks. Research shows that healthy eating has been linked to higher grades, better concentration, more energy, and better attendance. From school gardens to nutrition classes, CVPromise supports parents.

COMMUNITY: CVPromise believes school success is not limited to classroom academics. The whole community environment plays a part. That is why an important pillar to CVPromise pipeline of services is the strengthening of community.
